PROFILE SUMMARY

A dedicated Final year IT undergraduate currently pursuing a degree at a leading university in Sri Lanka with a strong enthusiasm for technology and continuous learning. Mainly focused on full stack software development and software engineering principles with a deep commitment to learning cutting edge technologies in the industry.

PROFESSIONAL EXPERIENCE

Software Developer | Global In-house Development Team – AIESEC International Feb 2025 - Jul 2026

- Contributed to the development of internal software development project - MEXA, in full stack development, project management, architecture designing...

Software Engineer-Intern – SI Dynamics Pvt. Ltd.

May 2025 - Oct 2025

- Contributed to the full stack software development process of multiple projects including EDOTCO, HIMS etc..

EDUCATION

B. Sc. (Hons.) Information Technology & Management 2022 - 2026

University of Moratuwa, Sri Lanka - CGPA - **3.65/4.00**

Pearson's Assured Diploma in Software Engineering 2020 - 2021

Esoft Metro Campus

Diplôme d'Études en Langue Française (DELF) – A2 & B1 2020 - 2021

Alliance Française de Matara

GCE Advanced Level Examination 2018 - 2020

Richmond College - Galle - Z-Score - 2.5895

GCE Ordinary Level Examination 2017

St. Aloysious' College - Galle - 8A's & 1C

TECHNICAL SKILLS

- | | | |
|--------------------------|---------------------|---------------------------|
| • React JS, Next JS | • Java, Spring Boot | • Git, GitHub, Bit Bucket |
| • JavaScript, TypeScript | • Python, Django | • Docker, Jenkins |
| • Tailwind CSS, MUI | • C#, ASP.Net Core | • Cucumber, Playwright |
| • NodeJS, Express JS | • C, C++ | • TensorFlow, PyTorch |
| • Nest JS | • MySQL, PostgreSQL | • ClickUp, Open Project |
| • React Native | • MongoDB, Firebase | • AWS - EC2, S3 bucket |

ACHIEVEMENTS

- Champions – J'PuraXtream 2024** - Hackathon Organized by IEEE Student branch of University of Sri Jayawardhanapura.
- Second Runners-Up - Open Hack 2.0** - Hackathon Organized by FOSS Community of IIT in 2023.
- Finalists – Real Hack 4.0** - Qualified to the final 15 of the hackathon organized by the IEEE student branch of university of Kelaniya in 2022.
- HacktoberFest 2022** - Swag Winner

PROJECTS

AI Based Gemstones Classification, Cut Prediction & Value Estimation Framework. (Final Year Research Project)

- Solved Problem - Biasness and Human error involved in identification, cutting and valuation of gemstones.
- Novelties - increasing accuracy under limited datasets using Data Augmentation, Transfer Learning & fine-tuning, 3D output of the predicted cut optimizing the weight, combining economic factors along with the 4Cs in valuation.
- Technologies - Image Processing, Data Augmentation, Transfer Learning, XAI

X-Bus - Multi-Purpose Bus Fleet Management System. (Third Year Individual Project)

- Solved Problems - Passenger overcharging, long bus queues & waiting time, currency usage, lack of proper mechanism in bus transportation to manage lost & found items, bus location tracking
- Novelties - A centralized system to locate buses, seat reservation, online payments, lost & found item management of passengers in public bus transportation, A centralized platform for the bus owners to easily manage their bus fleets, revenues and expenses, passenger feedbacks & complaints etc...
- Technologies - React, React Native, Node.js, tailwind CSS, PostgreSQL, Google Maps API, Stripe, JWT, Docker

Tradeasy - Sales, Inventory & Supplier Management System. (Second Year Group Project)

- Solved Problems - Scalable solution for sales, inventory and supplier management in construction domain optimizing the business operations.
- Contribution - Implemented the key features of supplier management and payment management integrating a secure payment gateway.
- Technologies - React.js, NestJS, Material UI, PostgreSQL, Docker, Stripe

Rise Up Mora - UOM IEEE SB Internship Platform

- Problem - 500+ students needed efficient internship matching. Companies required a system for candidate review and interviews.
- Impact - Connected 500+ students with opportunities. Streamlined candidate-company matching process.
- Technologies - React, Firebase, Material UI, Typescript

VRL- A NewsBlogs, Publications & Events Management Platform of VRL Institute

- Problem - VRL institute needed a system to manage their blogs, publications and events efficiently and increase the reach their content.
- Impact - 100+ audience linked to the VRL Institute. Streamlines the internal processes.
- Technologies - Next JS, Node with Express, MongoDB, docker, CI/CD

EXTRA CURRICULAR ACTIVITIES

Global In-House Development Core Team – AIESEC International	Feb 2025 - Jul 2026
International Relations Specialist – AIESEC in Czech Republic	Aug 2024 - Jan 2025
National Dev.Team – AIESEC in Sri Lanka	Sep 2023 - Jan 2025
Local Committee Vice President – AIESEC in University of Moratuwa	Sep 2023 - Jan 2025
Health & Safety Committee Member – Mora Hiking Club	Feb 2025 - Jan 2026
Web Team Member, Rise-Up Mora OC – IEEE Student Branch of University of Moratuwa	2023
